

CITY OF LITTLE ROCK

PETITION FOR SPEED HUMP EVALUATION STUDY

Date:

Rock Traffic Eng	Neighborhood/Street, request City of Little gineering Division to conduct a speed/volume study to determine if the following street adopted criteria for speed hump installation:
Name of affected St	reet
between	&
(Intersecting	g Streets) &
5)	Study will be conducted ONLY if 75% of the property owners (fronting the affected street) support speed hump installation Speed Humps may be installed ONLY if funding is available and study results indicate that speed hump warrants are satisfied Please make efforts to obtain signatures of ALL property owners on the affected street (whether <i>for</i> or <i>against</i>) If a property owner is unwilling to participate, you may indicate so next to the property address. Signature must be of the property owner or authorized representative. Only one signature per household allowed.
O .	to: Traffic Control Center Attn: Greg Clay 621 S. Broadway Little Rock, AR 72201 fully before signing:

While speed humps generally reduce vehicle speeds, they may also create other inconveniences such as increased vehicular noise in the vicinity of speeds humps. Also, because of spacing requirements, it is possible that a speed hump, associated pavement markings and signage may be installed adjacent to your property.
